## CHEMISTRY FOR CONSERVATORS September to December 2020

Dear Giorgio,

Congratulations on completing the Chemistry for Conservators course. This is a major achievement.

The difficulty, dedication and discipline required by someone to pursue a course of study by correspondence in their own time (rather than within a formal college class structure) is recognised by the growing number of conservation training establishments who recommend the taking of this course for prospective applicants with no chemistry qualification. Those persons who complete this course are thus worthy of the greatest admiration.

Your course marker, Velson Horie, joins me in congratulating you on your effort and achievement.

Please find enclosed your certificate. I wish you the best of luck in your future endeavours!

Best wishes
